Mastering Modern AI Tools workshop

AI Prompt Library

Learn the Right Tools. Use Them Effectively. Work Smarter.

Scan to open the website on your phone.

https://cad692.github.io/ai-prompt-library/

How to use

1. Find a prompt below and tap **Open**.
2. Read the preview on the website.
3. Tap **Copy** and paste it into your AI tool.

115+ prompts · Foundations · Responsible AI use · Cheat sheet · Offline download

Categories: Assistants · Research · Documents · Prompting · Slides · Images · Work · Data · Add-ins · Workflows · Pakistan · Chains
Filter live on the website: https://cad692.github.io/ai-prompt-library/

AI Assistants	001 to 010	
001 **Decision Lens Builder** Use this to compare important options without outsourcing the final decision.	Intermediate	Open
002 **Realistic Week Designer** Use this to turn crowded commitments into a workable week with recovery time.	Beginner	Open
003 **Skill Practice Coach** Use this to learn a skill through diagnosis, practice, feedback, and reflection.	Intermediate	Open
004 **Tone-Safe Email Rewriter** Use this to improve an email while preserving facts, intent, and your voice.	Beginner	Open
005 **Meeting Readiness Brief** Use this to enter a meeting with clear outcomes, questions, and fallback positions.	Intermediate	Open
006 **Constraint-Led Idea Lab** Use this to generate feasible ideas within real limits instead of generic brainstorming.	Intermediate	Open
007 **Interview Pressure Rehearsal** Use this to rehearse an interview through realistic role-play and direct critique.	Advanced	Open
008 **Two-Level Concept Explainer** Use this to understand a concept first simply and then at professional depth.	Beginner	Open

009 **Habit Experiment Partner** Use this to design a small, compassionate habit experiment grounded in your routine.	Intermediate	Open ■
010 **Respectful Conflict Message** Use this to draft a calm message about conflict while keeping boundaries clear.	Advanced	Open ■

Research & Search

011 to 020

011 **Three-Source Triangulator** Use this to compare independent sources before trusting a consequential claim.	Advanced	Open ■
012 **Literature Landscape Mapper** Use this to map a field's themes, methods, debates, and landmark studies.	Advanced	Open ■
013 **Claim Evidence Auditor** Use this to separate claims, evidence, assumptions, and overstatement in a text.	Intermediate	Open ■
014 **Cited Brief Producer** Use this to create a current web brief whose citations can be checked.	Intermediate	Open ■
015 **Rival Explanations Workbench** Use this to test multiple explanations for an observation without anchoring early.	Advanced	Open ■
016 **Headline Study Crosscheck** Use this to compare news coverage with the study or data it describes.	Intermediate	Open ■
017 **Research Question Sharpener** Use this to turn a broad topic into a feasible and ethical research question.	Beginner	Open ■
018 **Annotated Source Cards** Use this to create evaluative annotations from sources you have actually read.	Intermediate	Open ■
019 **Evidence Gap Radar** Use this to identify defensible research gaps without claiming that nothing exists.	Advanced	Open ■
020 **Portable Fact-Check Plan** Use this to verify a claim systematically before sharing or acting on it.	Beginner	Open ■

Documents & PDFs

021 to 030

021 **PDF Active Study Notes** Use this to transform an uploaded reading into notes that support active recall.	Beginner	Open ■
022 **Agreement Risk Spotter** Use this to spot contract clauses worth discussing with a qualified lawyer.	Advanced	Open ■
023 **Executive Signal Summary** Use this to compress a long report into decisions, evidence, and implications.	Intermediate	Open ■
024 **Dual PDF Comparator** Use this to compare two documents on matching criteria with traceable evidence.	Advanced	Open ■
025 **Document Action Harvester** Use this to extract clear tasks, owners, deadlines, and dependencies from text.	Beginner	Open ■
026 **Thesis Chapter Reading Companion** Use this to take analytical notes on a thesis chapter without rewriting it.	Advanced	Open ■
027 **Transcript Clarity Editor** Use this to clean a meeting transcript while preserving meaning and accountability.	Intermediate	Open ■
028 **Policy Plain-Language Translator** Use this to explain a policy clearly without weakening its actual requirements.	Intermediate	Open ■

029 **Pasted Reference Normalizer** Use this to clean a pasted reference list without inventing missing details.	Beginner	Open ■
030 **Notes-Grounded Q&A; Maker** Use this to ask and answer questions strictly from uploaded learning notes.	Intermediate	Open ■

Prompt Engineering

031 to 040

031 **RTCFCE Prompt Architect** Use this to convert a rough task into a complete RTCFCE prompt (Role, Task, Context, Format, Constraints, and Examples).	Intermediate	Open ■
032 **Weak Prompt Makeover** Use this to see exactly how a vague prompt becomes specific and testable.	Beginner	Open ■
033 **Grounded Answer Guardrails** Use this to design prompts that reduce unsupported claims and invented details.	Advanced	Open ■
034 **Clarification Gate Designer** Use this to make an AI ask important questions before attempting the task.	Intermediate	Open ■
035 **Critique Revision Engine** Use this to build a prompt that critiques an output before revising it.	Advanced	Open ■
036 **Constraint Stack Builder** Use this to organise multiple prompt constraints without creating contradictions.	Intermediate	Open ■
037 **Few-Shot Pattern Crafter** Use this to build examples that teach a model the desired output pattern.	Advanced	Open ■
038 **Task Tool Routing Prompt** Use this to choose an appropriate AI tool based on task capabilities.	Beginner	Open ■
039 **Socratic Learning Dialogue** Use this to create a tutor prompt that guides learning through questions.	Intermediate	Open ■
040 **Output Rubric Designer** Use this to define measurable criteria for evaluating an AI-generated output.	Advanced	Open ■

Presentations & Design

041 to 050

041 **Investor Pitch Deck Architect** Use to shape an early-stage venture story before designing the slides.	Beginner	Open ■
042 **Concept to Teaching Slides** Use to teach one difficult concept through examples, checks, and practice.	Beginner	Open ■
043 **One Message per Slide Editor** Use when slides contain dense paragraphs, mixed messages, or unclear headlines.	Beginner	Open ■
044 **Speaker Notes Rehearsal Coach** Use to convert slide bullets into natural notes for a timed presentation.	Beginner	Open ■
045 **Visual Metaphor Finder** Use to replace generic stock photos with meaningful visual concepts.	Beginner	Open ■
046 **Before and After Slide Clinic** Use to diagnose and redesign one weak slide without changing its facts.	Beginner	Open ■
047 **Canva Social Carousel Planner** Use to turn one useful idea into a swipeable educational carousel.	Beginner	Open ■
048 **Stakeholder Update Deck** Use for a concise project update that foregrounds decisions and risks.	Beginner	Open ■

049 **Workshop Agenda Slide Builder** — Beginner — Open ■
Use to design agenda slides that explain participation, timing, and outcomes.

050 **Data Slide Storyline** — Beginner — Open ■
Use to turn a chart or dataset into an honest decision narrative.

Images & Video — 051 to 060

051 **Studio Product Photo Director** — Beginner — Open ■
Use to create a production-ready product image prompt without false features.

052 **Educational Explainer Still** — Beginner — Open ■
Use to visualize a process or concept in one teachable image.

053 **LinkedIn Profile Banner Brief** — Beginner — Open ■
Use to design a professional banner that supports, rather than repeats, a profile.

054 **Urdu Calligraphy Safe Poster** — Beginner — Open ■
Use to create a culturally respectful poster while preserving accurate Urdu text.

055 **Midjourney Editorial Portrait** — Beginner — Open ■
Use for a controlled editorial portrait with explicit lighting and camera language.

056 **Runway Six Second Scene** — Beginner — Open ■
Use to brief a short, controlled image-to-video moment in Runway.

057 **CapCut Caption Led Reel** — Beginner — Open ■
Use to script a short vertical video designed for sound-off viewing.

058 **ElevenLabs Natural Voiceover** — Beginner — Open ■
Use to prepare a natural voiceover script with pronunciation and pacing cues.

059 **Six Frame Storyboard Map** — Beginner — Open ■
Use to previsualize a short video before filming or generating assets.

060 **Brand Consistent Image Family** — Beginner — Open ■
Use to generate several campaign images that feel related but not repetitive.

Work & Business — 061 to 070

061 **Respectful Cold Email** — Beginner — Open ■
Use to draft a concise first-contact email grounded in real relevance.

062 **Proposal Scope Boundary Builder** — Beginner — Open ■
Use to define project deliverables, exclusions, acceptance, and change handling.

063 **Evidence Aware SWOT** — Beginner — Open ■
Use to build a SWOT that separates evidence from team assumptions.

064 **Customer Interview Field Guide** — Beginner — Open ■
Use to plan non-leading interviews about real customer behavior.

065 **SOP First Draft Mapper** — Beginner — Open ■
Use to turn process knowledge into a testable first SOP.

066 **Service Complaint Recovery Reply** — Beginner — Open ■
Use to respond calmly to a customer complaint with verified next steps.

067 **Plain Language Pricing Explainer** — Beginner — Open ■
Use to explain pricing structure clearly without hidden qualifiers or legal claims.

068 **Mutual Value Partnership Outreach** — Beginner — Open ■
Use to approach an organization with a specific, balanced collaboration idea.

069 **Outcome Led Weekly Status** — Beginner — Open ■
Use to turn weekly activity notes into a concise outcome and risk update.

070 **Local Shop Campaign Angle Lab** — Beginner — Open
Use to brainstorm practical campaign angles for a neighborhood business.

Data & Productivity

071 to 080

071 **Spreadsheet Cleaning Blueprint** — Beginner — Open
Use to plan safe cleaning before changing a messy spreadsheet.

072 **Chart to Decision Narrative** — Beginner — Open
Use to explain a chart in plain language without overstating it.

073 **Assumptions First Analysis** — Beginner — Open
Use before quantitative analysis to expose definitions, assumptions, and decision thresholds.

074 **Notion Database System Designer** — Beginner — Open
Use to design a practical Notion database before building views and automations.

075 **Meeting Notes to Accountable Actions** — Beginner — Open
Use to convert messy meeting notes into decisions, tasks, and open questions.

076 **Zapier or Make Workflow Sketch** — Beginner — Open
Use to map an automation before connecting live accounts or customer data.

077 **KPI Definition Card Maker** — Beginner — Open
Use to define KPIs consistently before building a dashboard.

078 **Unbiased Survey Designer** — Beginner — Open
Use to design a short survey that measures one clear research objective.

079 **Spreadsheet Error Check Formulas** — Beginner — Open
Use to design formula-based checks that flag likely spreadsheet errors.

080 **Personal Knowledge Base Architecture** — Beginner — Open
Use to create a simple knowledge system you can maintain each week.

AI Add-ins

081 to 088

081 **Word Rewrite With Guardrails** — Beginner — Open
Rewrite a Word document while preserving meaning, facts, and the writer's natural voice.

082 **Excel Analysis Question Designer** — Intermediate — Open
Ask Copilot in Excel for a focused, auditable analysis of a selected table.

083 **Gmail Context-Aware Draft** — Beginner — Open
Draft a clear Gmail reply grounded in the thread and the sender's actual request.

084 **Grammarly Plus Human Tone Review** — Beginner — Open
Run a Grammarly tone pass, then complete a disciplined human editorial check.

085 **Browser Sidebar Research Capture Card** — Intermediate — Open
Capture a web source into reusable evidence notes without confusing claims with conclusions.

086 **GitHub Copilot Function Scaffold** — Intermediate — Open
Generate a function stub with explicit contracts, edge cases, and test placeholders.

087 **Cursor Multi-File Refactor Brief** — Advanced — Open
Ask Cursor to refactor several files while preserving public behavior and limiting scope.

088 **Notion Meeting Notes Curator** Convert rough Notion meeting notes into decisions, actions, questions, and a concise record.	Beginner	Open ■

AI Workflows — 089 to 096

089 **Study Pack Production Pipeline** Design a multi-tool pipeline that turns learning material into an ethical study pack.	Intermediate	Open ■
090 **Monthly Content Calendar Pipeline** Build a repeatable workflow from audience insight to approved, scheduled content.	Intermediate	Open ■
091 **AI-Assisted Client Delivery Checklist** Create a controlled client-delivery process with transparent and reviewable AI assistance.	Advanced	Open ■
092 **Source-to-Decision Brief Workflow** Plan a traceable path from research question to concise decision brief.	Advanced	Open ■
093 **Focused Job-Hunt Daily System** Organise a daily job search across discovery, tailoring, outreach, tracking, and follow-up.	Beginner	Open ■
094 **Small Business Weekly AI Rhythm** Plan a practical weekly AI routine for a small business with clear human controls.	Intermediate	Open ■
095 **Data-to-Decision Operating Workflow** Turn operational data into a documented recommendation with validation and accountability.	Advanced	Open ■
096 **Teacher Preparation Workflow** Prepare an inclusive lesson through curriculum alignment, resource creation, review, and reflection.	Intermediate	Open ■

Pakistan Pack — 097 to 108

097 **CSS and PMS Study Plan Builder** Build a realistic CSS or PMS preparation schedule centred on concepts and ethical practice.	Intermediate	Open ■
098 **CSS and PMS Concept Self-Tutor** Learn a CSS or PMS concept through explanation, examples, recall, and self-testing.	Intermediate	Open ■
099 **HEC University Assignment Structure Coach** Plan an original university assignment structure while preserving the student's authorship and citations.	Beginner	Open ■
100 **Thesis Chapter Architecture Planner** Design a thesis chapter map aligned with the research question, method, and evidence.	Advanced	Open ■
101 **Scholarship SOP Argument Architect** Build an authentic scholarship statement structure from the applicant's verified experiences and goals.	Intermediate	Open ■
102 **International CV Evidence Tailor** Tailor a Pakistani candidate's CV to an international vacancy without fabricating credentials.	Intermediate	Open ■
103 **Rozee.pk and LinkedIn Application Kit** Prepare a consistent application kit for a genuine vacancy found on Rozee.pk or LinkedIn.	Beginner	Open ■

104 **Upwork and Fiverr Proposal Proof Writer** Draft a concise freelance proposal grounded in the client's brief and the seller's real proof.	Intermediate	Open ■
105 **Pakistan City Market Campaign Planner** Plan a locally grounded campaign for a specific Pakistani city using testable assumptions.	Advanced	Open ■
106 **Urdu, English, and Roman Urdu Adapter** Adapt one message across Urdu, English, and Roman Urdu while preserving intent and register.	Intermediate	Open ■
107 **WhatsApp Business Message Suite** Create permission-aware WhatsApp Business messages for common customer moments.	Beginner	Open ■
108 **FBR Tax Awareness Explainer** Explain a Pakistan tax topic in plain language with official-source checks and boundaries.	Advanced	Open ■

Workflow Chains

109 to 115

109 **Chain Step 1 - Research Brief** Define a precise research brief that can support the rest of a presentation workflow.	Intermediate	Open ■
110 **Chain Step 2 - Evidence Notes** Convert the approved research brief into traceable, source-level evidence notes.	Advanced	Open ■
111 **Chain Step 3 - Evidence Synthesis** Turn verified evidence notes into findings, tensions, and calibrated implications.	Advanced	Open ■
112 **Chain Step 4 - Presentation Outline** Shape synthesised findings into a persuasive and logically paced presentation outline.	Intermediate	Open ■
113 **Chain Step 5 - Slide Draft** Draft concise slide content from an approved evidence-mapped presentation outline.	Intermediate	Open ■
114 **Chain Step 6 - Speaker Notes** Create natural speaker notes that add context without reading the slides aloud.	Intermediate	Open ■
115 **Chain Step 7 - Final Quality Review** Conduct a final evidence, narrative, design, accessibility, and delivery review.	Advanced	Open ■
